

# OPERS Health Care 2022

**To determine your allowance percentage, compare the table below to the following:**

- Your age when you first **enrolled** in OPERS health care
- Your qualified service credit at retirement
- Use age 60 if you were, or plan to be, under age 60 at first enrollment; use age 65 if you were, or plan to be, over age 65 at first enrollment.

**Notes for those retired and enrolled prior to 2015:**

- If you had less than 20 years of service, your allowance percentage will be reduced from 75% to 51% beginning Jan. 1, 2022.
- If you had 20 or more years of service, your allowance could change. This impacts retirees who, using the table, had an allowance percentage less than 75%, but were grandfathered at 75% in 2015. Your allowance will be reduced to between 51% and 74% based on your actual position on the allowance table beginning Jan. 1, 2022.
