Penalty assessment schedule changed

Who should read this notice
Those individuals responsible for payment of retirement contributions to OPERS, such as finance directors and payroll officers

Situation overview
In 2007, legislation was passed to change the penalty assessment schedule for late payment of the employer portion of the retirement contribution. The change reduced the penalty from a flat percentage to a penalty assessment on a graduated scale, based on the length of time the payment was outstanding.

That legislation did not apply to penalties assessed on the remittance of the employee data and payment. As a result, penalties incurred due to late reporting or payment of the employee portion of retirement contributions have continued to be assessed at the full 5% rate.

Recent legislation has now aligned the calculations on how penalties are assessed. The legislation has an effective date of September 23, 2008. The new schedule for penalties due to late reporting or payment of employee contributions is:

<table>
<thead>
<tr>
<th>Days late</th>
<th>Penalty assessed</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-10</td>
<td>1.0%</td>
</tr>
<tr>
<td>11-30</td>
<td>2.5%</td>
</tr>
<tr>
<td>31 days late and beyond</td>
<td>5.0%</td>
</tr>
</tbody>
</table>

It’s important to note the applicable percentage will be calculated on the total employee contribution amount due found on the Report of Retirement Contributions.

What you need to do
All employers should be aware of the revised penalty structure and realize late penalties will be assessed on the stepped-increase basis beginning September 23, 2008.

Why this is important
These changes have been made for consistency. This will align the overall economic impact of penalties with the timing of the remittance of your employees’ retirement contribution data and payment.

Changes to the Employer Manual
Pages 3.7 and 3.8, 3.27 and 3.28, and 6.1-6.8 have been updated and posted to the Employer Manual in the Employer section of the opers.org Web site. Any employer that maintains a hard copy of the manual should print these pages and update the manual.
