Dear Member of the Ohio General Assembly:

I am writing to express my strong support and to encourage passage of pension legislation based on recommendations proposed by OPERS. As a public employer, I know how important the retirement benefit is to attract quality employees to continue to provide important services for all Ohioans.

I strongly encourage you to support passage of pension legislation in 2012 as recommended by the OPERS Board of Trustees. I know ongoing delays will compromise the fiscal solvency of the pension system and cause a forfeiture of savings of almost \$1 million each day.

Speaking for one of 3,700 public-employer entities, I thank you for supporting this legislation designed to support the pension benefits of Ohio's public employees.

Sincerely,

\_\_\_\_\_
