# Disability Activity Report

Ohio Public Employees Retirement System

## Ohio Public Employees Retirement System

March 1, 2019

The Honorable Mike DeWine  
Governor  
State of Ohio  
77 S. High St., 30th floor  
Columbus, OH 43215-6117

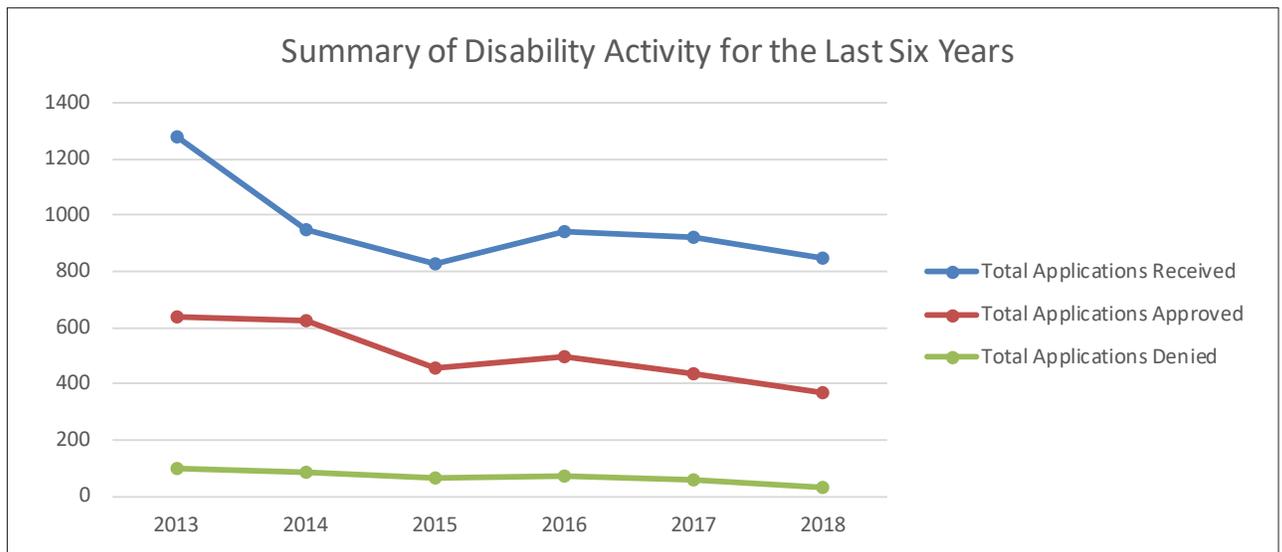

Re: 2018 Disability Activity Report

Dear Governor DeWine:

The Ohio Public Employees Retirement System respectfully submits the 2018 OPERS Disability Activity Report, pursuant to Section 145.351 of the Ohio Revised Code. OPERS provides a comprehensive retirement package for Ohio's public employees. Our membership includes more than 303,000 active workers, 626,000 inactive members and 225,000 benefit recipients, representing over 1.1 million members.

The retirement benefits offered by OPERS assist public employers in attracting and retaining quality workers who perform essential public services. As the largest public pension system in Ohio and the 12th largest in the U.S., OPERS is the retirement system for public employees, including those who work for state and local governments, universities, libraries and public hospitals. OPERS members work in a wide range of careers, from corrections officers and bridge designers to mechanics and elected officials, to name a few. The System was established in 1935 and pre-dates Social Security. As such, it serves as our members' primary means of retirement, disability and survivor benefits.

Though OPERS experienced a decrease in total disability benefit applications received in 2018 (850) compared to 2017 (920), the approval rate remained relatively consistent with the prior year.

(continued on next page)

In 2018, the OPERS Disability Program continued to focus on rehabilitative services. Many disability recipients realize improvements in their condition and even return to employment. To support disability recipients in reclaiming their health and returning to work, OPERS administers a Rehabilitative Services Program. Participants in the program have direct access to clinical and vocational rehabilitative services through clinical case managers and vocational specialists.

Beginning in August 2017, OPERS began surveying program participants following the completion of a case management service. According to their feedback, program participants have an increased understanding of their disabling condition and the available resources for vocational assistance. Responses indicate the program is well-received and achieving positive outcomes.

The OPERS Disability Program is an important part of the comprehensive OPERS benefit package. Eligible members may qualify for a disability benefit if they are disabled to the extent they are unable to perform the duties of their last public employment position(s) and their condition(s) is expected to last not less than 12 months. In 2018, OPERS paid \$662 million in disability benefits and preliminary figures indicate an additional \$295 million in health care coverage for disabled workers and their dependents. A more detailed overview of the OPERS Disability Program experience in 2018 is part of the supplemental materials included in this report.

In summary, the disability report shows total activity in 2018 as follows:

- Total applications received: **850**
- Total applications approved: **365**
- Total applications denied: **34**
- Total applications not eligible: **10**
- Total applications withdrawn: **9**
- Total applications non-compliant with review process: **1**
- Total applications still in process: **431**
- Total number of employers with at least one approved disability claim: **193**
- Total employees for all employers listed: **179,171**

Enclosed is a complete disability activity report for 2018 arranged by employer. If you have any questions, please do not hesitate to contact me at 614-222-0011.

Respectfully submitted,

A handwritten signature in black ink that reads "Karen E. Carragher".

Karen E. Carragher  
Executive Director

House Aging and Long Term Care Committee

**DISABILITY PROGRAM EXPERIENCE..... 1**

**SUMMARY OF DISABILITY ACTIVITY ..... 2**

**2017 DISABILITY ACTIVITY REPORT - PROCESS AND EMPLOYER DATA ..... 5**

In 2018, the OPERS Disability Program continued to focus on rehabilitative services. OPERS recognizes many of our disabled members can eventually enjoy productive lives. OPERS administers the Rehabilitative Services Program to support members in reclaiming their health and returning to work.

Over time, many of our disability recipients realize improvements in their condition and even return to employment. Participants in the Rehabilitative Services Program have direct access to clinical and vocational rehabilitative services through clinical case managers, who are certified registered nurses, as well as certified vocational specialists.

While in the Rehabilitation Services Program, the member must be an active partner, follow the case management plan and comply with requests from their clinical case manager. Through Clinical Rehabilitative Services, case managers ensure participants are undergoing appropriate continued medical treatment that is consistent with professional standards of care. Through Vocational Rehabilitative Services, participants are provided with vocational resources and tools, connecting them with local and state resources, to assist them in their self-directed efforts to seek employment.

Program participants report the addition of a vocational specialist has made the process more personalized and has assisted them in searching for and obtaining work. Also, referrals to state programs at Opportunities for Ohioans with Disabilities and the Bureau of Vocational Rehabilitation have resulted in employment opportunities and visual impairment modifications.

At the end of 2018, the Rehabilitative Services Program posted a 79.8 percent participation rate, a 2.8 percent increase from 2017.

In 2018, OPERS solicited feedback from participants who completed a case management service. With an average of more than 688 responses per question, program participants indicated the following levels of satisfaction with their experience:

- 87 percent of program participants were satisfied with their case manager.
- 94 percent of program participants indicate positive interactions with their case manager.
- 80 percent of program participants indicate the resources provided by the clinical case manager were helpful.
- 84 percent of program participants indicate the feedback provided by their clinical case manager was helpful.

Following case management, participants in the Rehabilitative Services Program have increased knowledge about their individual disease states/disabling conditions, and a better understanding of the importance of self-management. Participants also have an increased awareness of available resources for employment readiness/vocational assistance and access to care.

In conclusion, the OPERS Disability Program continues to help recipients realize improvements in their health, thereby increasing their likelihood of returning to work. This effort is largely accomplished through our Rehabilitative Services program, which continues to grow in population. According to participant feedback, the program is well received and achieving positive outcomes.

## SUMMARY OF DISABILITY ACTIVITY

### SUMMARY OF DISABILITY ACTIVITY FOR 2018

Total applications received	850
Total applications approved	365
Total applications denied	34
Total applications not eligible	10
Total applications withdrawn	9
Total applications non-compliant with review process	1
Total applications still in process	431

### SUMMARY OF DISABILITY ACTIVITY FOR THE LAST FIVE YEARS (2014-2018)

	2014	2015	2016	2017	2018
Total applications received	945	825	944	920	850
Total applications approved	625	453	495	434	365
Total applications denied	85	65	71	56	34

## **OPERS**

### **Board of Trustees**

The 11-member OPERS Board of Trustees is responsible for the administration and management of OPERS. Seven of the 11 members are elected by the groups that they represent (i.e., college and university non-teaching employees, state, county, municipal, and miscellaneous employees, and retirees); the Director of the Department of Administrative Services for the State of Ohio is a statutory member, and three members are investment experts appointed by the Governor, the Treasurer of State, and jointly by the Speaker of the Ohio House of Representatives and the President of the Ohio Senate.

**For a current listing of OPERS Board members, please visit [opers.org](http://opers.org)**
